

# MEET THE OWNERS

## OUR COMMITMENT TO YOU

Golden Moon was established in 1984. It was the first restaurant serving oriental cuisine in Weatherford, TX. We will offer you the best of the Thai and Chinese cultures, right here at home.

### COMING TO WEATHERFORD

When we first surveyed the community of Weatherford to review our options concerning opening a restaurant, there was no doubt that we had found home. We were welcomed with open arms and we've been sharing our love of oriental cuisine with all of you ever since.

We have been supported by Weatherford and the surrounding communities since day one. According to our customers, Golden Moon has become one of Weatherford's favorite restaurants and we take great pride and honor in making sure we provide you with our very best in return.

We look forward to seeing you at The Moon

### ABOUT OUR FOOD

#### THAI CUISINE

The secret to Thai Cuisine is maintaining a delicate balance between spices and the main ingredients so that one does not overwhelm the other. It is light and fresh, seasoned with chili peppers and aromatic herbs. It can be spicy hot (not as heavy as fiery Indian food) or as gently flavored as Chinese food. It is a pleasant contrast between the two. You can choose "Spicy Hot" or "Spicy Not"

One dish can have as many as 7 or more variations. Although beef, chicken, pork and seafood are most often used, vegetable dishes are equally as popular. It is the blend of Thai seasonings such as garlic, onion, basil, coriander, ginger, mint, chili peppers, curry, lemongrass and kaffir lime leaves that give Thai cuisine its unique flavor.

#### CHINESE CUISINE

Most Chinese style food offered in the US is Cantonese. It offers gently flavored vegetables such as snow peas, green beans, bok choy, broccoli, bean sprouts, eggplant, bell pepper, onion and many more cooked with any meat of your choice. Hunan or Schezuan style cooking adds a spicy taste. These foods offer extreme flavor when created with high heat techniques.

More and more Chinese restaurants are serving buffet style. Here at Golden Moon we believe in cooking food fresh, to your liking, while you wait. This way the foods and flavors can be fresh when served. The heat from the wok keeps the food hot, delightful and delicious at all times.
